Bikaner, Rajasthan | +91-9928283468 | [Portfolio](#) | Yashvardhan Acharya

Professional Summary

Creative and detail-oriented UI/UX Designer and Product Thinker with a strong foundation in user-centered design, wireframing, and prototyping. Passionate about solving real-world problems through intuitive and visually engaging digital experiences. Skilled in translating complex user needs into functional, high-impact designs that balance business goals with user satisfaction.

Core Competencies

- **Design:** Figma, Wireframing, High-Fidelity Prototyping, User Flows, Design Systems, Responsive Design.
- **UX Research:** User Interviews, Usability Testing.
- **Technical:** HTML, CSS, Git, GitHub, Product Thinking.
- **Soft Skills:** Cross-functional Collaboration, Problem Solving, Strategic Communication.

Professional Experience

Project Manager Intern

Metablock Technologies LLP, Jaipur | Jul 2025 – Sep 2025

- Collaborated closely with design and development teams to align product objectives with user requirements and technical constraints.
- Structured internal workflows and task management systems, resulting in a measurable improvement in team delivery efficiency.
- Facilitated requirement gathering sessions and produced comprehensive documentation to ensure clarity in feature implementation.
- Applied product thinking methodologies to bridge the gap between user needs and functional specifications.

Python Developer Intern

Techtrom Solutions (Remote) | Jun 2024 – Jul 2024

- Developed automated scripts to optimize internal workflow efficiency and data processing.
- Operated within an agile environment, utilizing version control (Git) for iterative software improvements.
- Leveraged logical thinking and systematic problem-solving skills, providing a technical perspective beneficial to UX logic and flow design.

Certifications

Foundations of User Experience Design, Google/Coursera (Completed March 2026) ([Link](#))

Data Analytics Job Simulation by Deloitte/Forage (Completed July 2025) ([Link](#))

Key Projects

CodeSage – AI Learning Platform ([GitHub Repo](#))

- Designed an end-to-end interactive learning experience focusing on user engagement and cognitive load reduction.
- Mapped complex user flows for AI-driven coding practice sessions and interactive feedback loops.
- Integrated gamification elements and intuitive navigation to enhance student retention and motivation.

Amazon App UI Redesigned ([Prototype Link](#))

- Redesigned the Amazon mobile application UI to simplify navigation and enhance user experience, focusing on making the app more intuitive and easy to use.
- Conducted user flow analysis and high-fidelity prototyping to streamline core shopping tasks like search, product viewing, and checkout.
- Implemented a cleaner, more minimalist visual design to reduce cognitive load and improve overall legibility and accessibility.

Sampark App – A more local LinkedIn version UI ([Prototype Link](#))

- Engineered a mobile interface specifically tailored for rural usability, prioritizing accessibility and low-literacy affordances.
- Produced low-to-high fidelity wireframes and interactive prototypes in Figma to test user mental models.
- Simplified administrative workflows to ensure local governance tools are accessible to non-technical users.

Education

B.Tech in Computer Science Engineering

Government Engineering College, Bikaner | Expected 2026

Extra-Curricular Leadership

Coordinator, Student Activity Centre: Managed and executed large-scale university events (Srijan, Navrang), overseeing logistics, team coordination, and stakeholder communication.
